- 5) Coenzyme Q10
- 6) Inositol

Vitamins

Vitamin A

Market price drop much and keep dropping in the past two months. And market demands is relatively weak. The Vitamin A 1.7 Miu/G price is about USD85/kg against different quantity.

Vitamin D3

Market price of Vit D3 keep relative stable now. End-user and distributors mainly consuming own stock materials, market demands is weak. The current price of Vit D3 100,000IU/G CWS is at about USD11/kg, and the price of Vit D3 40MIU at about USD2350/kg.

Vitamin E 50% CWS /VE Oil 98%

Market price is stable. At present vit E 50% CWS food grade at about USD15.5-16/kg. Vit E 98% Oil price at about USD21-22/kg. Keep eyes on feed grade Vit E market changes.

Vitamin C/Coated 97/DC97

The manufacturers' price dropped much in the past month. Now the market price is low, but the customer inquiries is not strong, we think that the manufacturers will keep dropping slowly still, but it will be against the demands of the market and the stock of the manufacturers. Now the market price is at about USD3.6-USD3.8/kg FOB China.

Vitamin B1 Mono/Hcl

The recent market transaction price dropped quite slightly. The price is already at bottom level and it's hard to drop much more in later period. we kindly suggest to make plan for stock reserve. The current price for VB1 Mono is around USD19/kg FOB, and VB1 Hcl is around USD27/kg FOB.

Vitamin B2 98%

The products keep stable in past one month. Some factories face the tough domestic transportation problem. The current pricing is around USD48-53/kg depending different brand and quantities.

D-Calcium Pan/Vitamin B5

There are manufacturers offering USD85/kg (huge increase) for vitamin B5 in the market this month, the factories have strong willingness to increase this product's price as spot products being hard to find. The current market price is becoming strong, now the market price is around USD55-65/kg from different brands.

Vitamin B6

The main factory offer price of B6 is slightly downwards in later June, but market demand is still a little bit weak . In the later stage, it is expected to be stable at lower level, and suggest to consider to take some stock. The current market price is around USD17.5/kg.

Folic Acid

The main factory price is stable in this month.

Current price is around USD35/kg FOB from the public offer of manufactures.

Biotin 98%

Some factories stop offering the biotin pure in the market as summer is coming, they do prepare for summer maintenance for a long time, The price is around USD280-310/kg.

Sweeteners

Glucose series

Glucose price almost stable like last month. The price of Glucose Mono about USD600-620/mt fob and Glucose anhydrous at about USD750-800/mt. Clients can buy as plan.

Erythritol

The manufacturers' supply of erythritol still keeps tight. With the entry of new manufacturers, the current market price dropped to around USD4/kg.

Aspartame

The market is little tight. Price is stable. Current market price is around USD17.5-19/kg.

Sucralose

The price is stable . The current market price is at around USD48/kg. From July factories will start to stop production for annual machine inspection, the price may be influenced.

Saccharin Sodium

The price is table. The current market price is around USD6.5-7.5/kg FOB China .

Acidulants

Citric acid series

Citric acid supply is better than before and price is getting lower. Current offer of CAA USD2300-2400/mt FOB, CAM at about USD1950-2050/mt, sodium citrate USD2100-2250/mt. Suggest customer buy as demand.

Taurine

The transaction price is down. At present, the quotations from major factories are about USD3.2/kg FOB. At present, customer demand is relatively flat, and the price has dropped compared with the previous one. It is expected that the price of taurine will decrease slightly in the future.

DL-Malic acid

DL-malic acid, the delivery time is still tight. At present, the factory's delivery time is generally in the second half of 2022, and some factories have reached 2023. The current market price is USD3800-4000/mt.

Preservatives

Sorbic Acid /Potassium Sorbate

The current price of potassium sorbate and sorbic acid are becoming strong. Now the price of potassium sorbate is about USD6.15/kg, sorbic acid is about USD6.4/kg.

Sodium Benzoate

The price of sodium benzoate remains stable, now it is about USD2.3/kg. The price of Benzoic acid is about USD2.2/kg FOB China.

Antioxidants

Sodium Erythorate

the market price now almost at the bottom compared with the price of last year around 3.45usd/kg, delivery could be according to stock

Sodium Ascorbate

The market for sodium ascorbate now remains stable , the market price is about USD3.9/kg FOB.

Other Products

Coenzyme Q10

As new manufacturer Yuxing entered, the current market price is about USD350/kg, the price is stable, a little different depending on the brand. Kindly advise to buy against the current demands.

Inositol

The market trend is stable and down, and the price of each factory is slightly lower than before, between USD18-21/kg, there are differences according to different manufacturers. The current market price varies between USD16-19.5/kg FOB depending on the source of goods.
