- 2) Inositol

Vitamins

Vitamin A

The price of Vitamin A is stable in this month. Now Vitamin A 1.7 Miu/g price is about USD56.0/KG according to different quantity. The market price of Vitamin A P 250CWS is at USD15.5-USD16.5/KG, the price of Vitamin A P 500CWS at USD26.5-USD27.5/KG; and price of Vitamin A A 325CWS at USD16-17/KG . The price of Vitamin A in the bottom and it's good time to purchase.

Vitamin D3

Vit D3 price is stable in July still. Now market price is about USD1150.0/KG, and the price of Vit D3 100,000IU/G CWS is about USD8/KG.

Vitamin E 50% CWS /VE Oil 98%

Price for Vit E 50% CWS food grade at around USD14.0/KG, and the price of Vitamin E 98% Oil at about USD16.5/KG. Now the price of Vitamin not reach to the bottom level, but the trend of price will be against the control of production of manufacturers.

Vitamin C/ DC /Coated 97

The vitamin C market keeps stable this month. Current price for VC is around USD2.1-2.2/KG . The market price of VC DC 97% is about USD2.9/KG.

Vitamin B1 Mono/Hcl

The Vitamin B1 market is relatively stable in July. Main factory are strong willingness to keep offer stable with little upwards. There are less low cost stocks in the market, thus the dealing price is also keep rising. The main factories offering B1 mono around USD 14.0/KG. Vitamin B1 HCL market price is around USD 19.0/KG.

Vitamin B2 98%

The product keeps stable in July. As the feed grade of B2 80% have a big increase affected by production capacity shortened, food grade's being influenced as well, around USD35.7-38/KG FOB depending different brands and quantities. Some factories even offer higher price in the market, it is predicted to be stable in short time.

D-Calcium Pan/Vitamin B5

Demand is keeping stable and strong this month. Some producers stop production in Summer for maintenance. Current pricing is around FOB USD12.5-13.5/KG from different brands. We predict it will be stable for a while, need to pay attention to the action of factories.

Vitamin B6

The Vitamin B6 keeps stable with upwards and stay at strong level generally. It has draw much attention in July on vitamins market. Main factories jointly increased their market offer in later July. The lower cost stock materials is very limited and tight on market. And recently Vitamin B6 has been in a strong level, the market price is around USD 18.0-19/KG from difference brands. It is safe to make purchase plan if need. Next, it needs to attention the factories offer and delivery status.

Folic Acid

In June, Folic Acid keeps stable with slightly upwards. And market demand is a bit quiet. The market price for the famous brand is around USD26-27/KG. Customers make purchasement base on current demands. In short time the price will be still stable, but needs to attention the factories production status.

Biotin 98%

This product is keeping weak this month. The current price is around USD165-170/KG FOB depending on different quantities and brands. It is predicted to be weak in short time.

Sweeteners

Glucose series

The price is stable in July and the demands of the market is not strong . The price of anhydrous glucose begin to rise in this month, the current price is around USD0.68/KG FOB, and the price of monohydrate Glucose is stable at about 0.58USD/KG FOB.

Erythritol

The price of Erythritol is stable recently, and the current export transaction in the market is around USD1.8/KG.

Aspartame

The market is weak and stable. Current market price is around USD9.5/KG. Price seems will still be stable in the following days.

Sucralose

The price decrease little and stable here. Current market price level is around USD17.5/KG.

Saccharin Sodium

The price is stable with weak demand. Current market price for 20-40mesh is USD5-6/KG, and 100mesh is around USD6-7/KG FOB China against different brands.

Acidulants

Citric acid series

Now the price of citric acid is soft, due to the weak market demand. The current price dropped slightly and become slowly . The market price of anhydrous citric acid is USD0.70-0.75/KG FOB,The market price of citric acid monohydrate is USD0.63-0.68/KG, we advise to purchased againse the demands.

Taurine

This month, the market demand is average, there are few inquiries, and the overall price is weak. The current market price is around USD1.8-1.9/KG, and there will be slight differences in different market prices.

DL-Malic acid

DL-malic acid, because of the price of raw materials fell, and the market demand was general, factory price was going down,but keep stable this month.The current market price is at USD2400-2460/MT.

Preservatives

Sorbic Acid /Potassium Sorbate

The market demand is flat and weak, end users mainly purchase base on demand. Along with the impact of the exchange rate, recently, the price of sorbic acid USD 2.88/KG, and potassium sorbate is about USD 2.50/KG. In the later stage, pay more attention to market changes and manufacturers' signing of orders.

Sodium Benzoate

The market demand is flat, end users mainly purchase base on demand. Factories quotation of benzoic acid is around USD1.33/KG, and sodium benzoate is USD1.12/KG. Pay more attention to market changes and manufacturers' signing of orders.

Antioxidants

Sodium Erythorlate

the market price if last month was reduced much, but already keep stable recently, now the price at about USD2.7/KG, the delivery and price could be according to the situation of stock .

Sodium Ascorbate

The price of sodium ascorbate is about USD3.3/KG FOB, and the price of VC calcium is USD3.8/KG FOB.

Other Products

Coenzyme Q10

The current market price is about USD200-250/KG,keep stable recently, have difference depending on the brand.Kindly advise to buy against the current demands.

Inositol

In the first half of 2023, the overall supply of inositol by mainstream manufacturers is limited, but the consumption of aquatic products is fast, the market supply is continuously decreasing, and the price of inositol basically remains high and stable. With the release of production capacity of new manufacturers, the prices have been adjusted recently, and the prices of mainstream brands are still maintained at a relatively high level. The current export FOB price is USD16-20/KG FOB.

Xanthan Gum

The prices of Xanthan Gum have come down a bit recently. The current price of Xanthan Gum food grade 80 mesh is around USD5.9/KG FOB any chinese port, Xanthan Gum 200 mesh is around USD6.1/KG FOB any chinese port. Supply is still tight, and we have some stock could support a competitive price.
