### Vitamin C/ DC /Coated 97

After the manufacturer stopped quoting in mid-November, low-priced inventory in the market was rapidly depleted, and the transaction price of the VC series rose rapidly. VC is about 2.8usd/kg, VC coated 97% 3usd/kg, Sodium Ascorbate 4.3usd/kg, VC calcium 4.6usd/kg. We will continue to pay attention and wait for each factory to resume quotations.

### Vitamin B1 Mono/Hcl

The Vitamin B1 has draw lots of attention on the market in recently month. Present main factory have stop offer and do not sign new orders. Thus the market transaction price has also risen up from early Nov. The stock on the market has been consumed a lot recent weeks, and hard to search the stock materials. Factory are still willing to keep the price at strong level in later period. Present market price B1 mono around USD17/KG. Vitamin B1 HCL around USD21.5/KG.

### Vitamin B2 98%

The market of Vit B2 is operating stably, demand and inquiries are average. At present,the market transaction price is USD35-40/KG.

### D-Calcium Pan/Vitamin B5

Vit B5 remained stable at low level this month. Prices have reached out the bottom and the room

for decline is extremely limited. Current market price is USD 7.8-8.5/KG.

### **Vitamin B6**

The market trend is relatively stable upwards in Nov. The main factory has stopped offer in the middle Nov. From the end of Nov, main factory have jointly increased the offer, market transaction increased as well. Now it is mainly consuming the market stocks material, and main factory offer around 18.5USD/kg. And it is expected to keep price at stong level later. Usually in Dec it is the hot purchasing month before Chinese Spring Festival. For any demand, better to make the plan in advance.

### **Folic Acid**

Folic Acid factory offer is relatively stable with slightly downwards on the market, while market demand still a bit quiet. It is mainly consuming the stock on market. Market price is around 24.0USD/kg. Customers make purchasement base on current demands. In the short time the price will keep stable.

### **Biotin 98%**

The price has dropped slightly this month, with mainstream factories quoting around USD 150/KG. The market demand is average, and clients are in a state of purchasing for usage.

### **Glucose series**

Prices are now stabilising, and the current price is around 0.66-0.69 USD/KG FOB. The recent market transaction price of glucose monohydrate also basically remained stable, the transaction price in the market is around 0.55-0.6 USD/KG.

### **Erythritol**

The price of erythritol has fallen compared to last month, and the current market price is 1.5usd/kg.

### **Aspartame**

The market is stable. The main raw materials propylene and aspartic acid raised, the market price already increased above USD10.5/kg in the past days. While we think the price will keep in the low level about USD9.5/kg.

### **Sucralose**

The price is stable this month. The main raw material DMF increase a lot before, also sugar price

Manufacturer of vitamin A, D, E for food and human 15+ years !

## **Other Products**

### **Coenzyme Q10**

The current market price is about USD190/KG,the market tends to be stable recently, have difference depending on the brand.Kindly advise to buy against the current demands.

### **Inositol**

Starting from October, the domestic market demand for myo-inositol has decreased compared with before. New manufacturers and small factories have some supply. The market price has been declining in the early stage, and customers mainly purchase it for rigid needs. As of now, the export transaction price in the Chinese market is around FOB USD9-12/KG, and that of other non-mainstream brands is slightly lower. The recent decline has begun to slow down, and it is expected to maintain weak and stable operation in the short term.

### **Xanthan Gum**

Xanthan gum has now stopped its downward trend and the volume of transactions on the market has increased. The current market price of xanthan is around at 3.1usd/kg. We have some stock for it.
