Vitamins to VEGA!

18th. Jan. 2024

VITAMIN | Calcium pantothenate 01

Recently, the mainstream calcium pantothenate factory delivery is tight, limited signing orders, some manufacturers slightly raise prices or stop to wait and see, domestic sales are positive, the export market inquiry increased.

AMINO ACID | Lysine 02

Recently, the foreign quotation of lysine hydrochloride from domestic factories is weak, and the export price is between USD1.13-1.15/KG. The end users purchase according to demand, and the overall market transaction is general. It is expected that the market will be weak in the later stage.

API | Doxycycline hydrochloride 03

Doxycycline hydrochloride, the mainstream manufacturers offer a single discussion, but the trading market supply and brand are increasing, the price is declining, the current market offer USD42.4/KG near, please pay attention to the follow-up price trend is slowly decreasing, so we need to pay close attention to it.

FOOD ADDITIVE | Aspartame 04

Recently, the food additive aspartame is affected by market demand, and the transaction price in foreign markets is about USD9.3-10/KG, and the price is expected to continue to maintain stability in the future.
