Vitamins to VEGA!

2nd. Feb. 2024

## VITAMIN

01

Limited supply: as of now, the domestic market has basically been closed, the transaction price of VA1000 is USD19-20.5, and the transaction price of VE 50% is USD7.7-7.9.

## AMINO ACID

02

Threonine: Recently, threonine manufacturers have lowered their quotations, and the market transactions are average. As the Spring Festival holiday approaches, end users are replenishing small quantities on demand. The market price is USD1335-1360/KG. It is expected that the threonine market will be weak in the short term.

## API

03

For Tylor-Tiamulin and Tilmicosin, the market has been moderately popular recently. The market stocking and purchase orders have decreased, and the market inventory is slowly accumulating. The market reference prices are around 29.8/KG for Tylor, 32.4/KG for phosphotidine, 39.54/KG for tilmicosin, 57.68/KG for tivalisin, and 19.44/KG for tiamulin.

## FOOD ADDITIVE

04

In 2024, EastrocSuperDrink will focus on the bottled functional drinks track, and the group will continue to devote resources. Promote the development of new products. Looking forward to the future, EastrocDrink will sprint for 20 billion and enter the top five beverages in China.
