VITAMIN

01

From Feb 4-6, Heilongjiang Provincial Drug Audit and Inspection Center conducted an on-site inspection of GMP compliance on the VB12 production line of Heilongjiang NHU. The result of this inspection is "Meet the GMP standard requirements", which lays the foundation for the export of VB12 to the EU.

AMINO ACID

02

Valine: Recently, the quotation of domestic factories fell to USD2/KG, the trade market prices are mainly negotiated while the transaction is weak. As the price enters the bottom level, there are factories start to reduce and stop production. Need to pay attention to the factory production situation and orders in the later stage.

API

03
