Vitamins to VEGA!

27th. Feb. 2024

VITAMIN I Vitamin K3

01

Recently, affected by supply and demand, the vitamin K3 market continues to rise. Market inventory is low, and customer demand is gradually increased. The current market MSB quotation is about USD11.85/KG; MNB offers about USD13 /KG. Follow the factory quotation.

AMINO ACIDI Methionine

02

According to information, Adiseo Nanjing plant liquid methionine plans to open the annual routine maintenance this week, for a period of 45 days.

API I Florfenicol

03

Florfenicol, the market is still weak in the first week of the year, demand is flat, supply is sufficient, market confidence is general, just need to purchase. At present, the factory price is between USD25/KG -USD25.5/KG, and is expected to remain weak and stable in the near future.

FOOD ADDITIVE

04

Unilab recently invested 80 million reais (\$16.2 million) to expand its Pouso Alegre factory in southeastern Brazil, in order to expand Hellmann's mayonnaise production at the factory. The plant is the company's "largest food plant in Latin America." Construction work is expected to be completed by May 2025. The new production line is expected to bring double-digit capacity growth to the site.
