VITAMIN

01

According to market news, on March 7, Tianxin Pharmaceutical stopped reporting and signing in the domestic market for feed-grade vitamin B6.

AMINO ACID

02

Lysine Hcl: The current market is very hot, factory stopped offering or increased the quotations. Export demand is on the rise, along with the transactions. The factory delivery time is quite tight, around May. The price is between USD1265-1325/MT. For the later trend, we need to pay attention to the factory signing and delivery situation.

API

03

Recently, Baidu Health and Guizhou Yibai Pharmaceutical signed a strategic cooperation agreement: the two parties will combine Internet platform technology and ecological advantages, aggregate each other's advantages and service capabilities, and innovate models around pharmaceutical digital marketing, ultimately benefiting a wider range of patients. He Mingke, senior vice president of Baidu Group and president of Baidu Health Business Group, Dou Yaqi, general manager of Yibai Pharmaceutical, Zhang Yandong, general manager of medical business of Baidu Health Business Group, and Zhang Yuanzhou, general manager of Yibai Pharmaceutical Digital Marketing Center, signed as representatives of both parties. entered into a cooperation agreement.

FOOD ADDITIVE

04

Today, for food-grade glycine, due to the increase in raw material prices, some manufacturers have raised prices. The market transaction price has risen to USD1.85-1.95/KG, and is expected to remain stable in the short term.
