Vitamins to VEGA!

13rd. March. 2024

VITAMIN/

01

KDW announced that the company recently received notice from VitaBest Nutrition, Inc., a wholly-owned subsidiary of the United States, that it has jointly invested and established a joint venture company in California, the United States, with natural persons WONG KA HUNG and Pan Xinqi. The main business of the joint venture is the production of soft capsule series products. The establishment of the company will help expand the company's product system and enhance the competitiveness of the company's overseas business, which is in line with the company's mid- to long-term development strategy.

AMINO ACID/ Valine

02

Recently, inquiries have increased a bit, and factories have raised their prices. Market price is around USD2.15/KG. The price is still at a relative bottom level. With the influence of soybean meal prices increase, the valine market is expected to be strong in the short term.

API

03

Xinhua Pharmaceutical announced in the evening that recently, the company received the "Drug Registration Certificate" for ibuprofen sustained-release capsules approved and issued by the State Food and Drug Administration. Ibuprofen sustained-release capsules have obtained a drug registration certificate, further enriching the company's ibuprofen product series and providing patients with new antipyretic and analgesic medication options.

FOOD ADDITIVE

04

Recently, mainstream factories of the nutritional additive Creatine Monohydrate have arranged the production schedule from late March to April. The transaction price is around USD 7.5/KG. At present, the prices of mainstream manufacturers remain stable, and it is expected to remain stable in the short term.
