AMINO ACID

02

In 2023, Meihua Biological produced 2.610,500 tons of animal nutritional amino acids, an increase of 4.47%. In 2023, the company achieved an annual operating income of 27.761 billion yuan, a slight decrease of 0.63%.

API

03

Enrofloxacin/ciprofloxacin hydrochloride, the recent domestic mainstream factory quotation is stable. Ennuo and salt ring market demand is weak at present, it is predicted that the subsequent price will decline slightly, and continue to pay attention to market transactions.

On March 19, Novo Nordisk announced an investment of about RMB 4 billion in the aseptic preparation expansion project in Zimbabwe, and held a groundbreaking ceremony for the expansion project. On the day of the event, leaders from the Danish Embassy in China, Tianjin and Binhai New Area were invited to attend and jointly witnessed the launch of the project.

FOOD ADDITIVE

04

Recently, food additive xanthan gum affected by market demand, some domestic manufacturers stopped to report, the current domestic market transaction price in the price of USD 2.75-3/KG or so, do not rule out the possibility of subsequent price increases.
