VITAMIN

01

On 20 March, DSM Firmenich Human Nutrition appeared at 2024FIC Shanghai and held the "DSM Firmenich Human Nutrition 2024 New Products and Nutritional Solutions Conference". DSM and nutritional experts had a multi-dimensional discussion on hot topics in the eye, cardiovascular, and intestinal industries, and addressed the market demand for these hot topics, as well as their scientific and technological advantages of expanding its inputs and deepening its innovations in these related health fields.

AMINO ACID

02

Tryptophan: Domestic manufacturers have recently been weak and stable in their quotations. At present, the factory is mainly shipping. The price in the domestic trade market is between CNY 72-75/KG. The price is high. There is new production capacity in China, and the supply has increased. It is expected that the tryptophan market will be stable in the later period.

API

03

Levamisole hydrochloride: Recently, affected by the price of the upstream raw material tetramisole, the price has further increased this week. At present, the market has increased its stocking and procurement orders, the market is hotter, and the market inventory is small. It is speculated that the subsequent price will be further adjusted, so please pay attention..

FOOD ADDITIVE

04

2Recently, the food additive sodium saccharin has been affected by market demand. The transaction price in the domestic market has stabilized at around RMB 37-39/KG, and the transaction price in the foreign market is around USD4.7-5/KG. In the short term, the price of sodium saccharin will stabilize.
