VITAMIN

01

Recently, Garden Bio said on the interactive platform:

1, 25 hydroxyvitamin D3 original at present in accordance with the agreement is mainly supplied to DSM;

2, 2023 year-on-year decline in operating income of lanolin and its derivatives, mainly due to the 2023 year-on-year decline in cholesterol sales.

AMINO ACID

02

Tryptophan: At present, the enterprise offer is running weakly and steadily, and the actual transaction price is around 8usd/kg, part of it is a little lower. The overall market transaction is less, end-users purchase on demand, purchase and sale is not active, it is expected that in the short term tryptophan market price is weaker, pay attention to the factory offer situation.

API

03

Geomycin and hygromycin hydrochloride, factory prices were low and stable in the first quarter. Hygromycin, the current market price of 8.5-8.9usd/kg; hygromycin hydrochloride, market price of 10.2-10.9usd/kg, the recent market pattern is basically stable, the follow-up need to continue to pay attention to the adjustment of the factory offer and changes in market demand, is expected to remain stable in the short term is mainly.

FOOD ADDITIVE

04

Recently, the price of sodium benzoate, a food additive used for antiseptic, has slightly dropped due to the market situation, with the transaction price in the domestic market at around 9-10 RMB/KG, and the transaction price in the foreign market at around 1.2-1.3 USD/KG. Subsequent prediction is running smoothly.
