VITAMIN

01

The price of folic acid has been stable recently, and customers mainly purchase for immediate use. Compared with other vitamin products, the price of folic acid has not fluctuated much this year, and the current export quotation is USD23-24/KG. The summer maintenance is coming soon, so we will need to pay attention to the production situation of factories.

AMINO ACID

02

Threonine: Recently, there have been few inquiries for Threonine, the market quotations have been slightly lowered, and the overall market transactions have been low. The current price is around USD1345-1360/MT, and the delivery date is around end of June. It is expected that the threonine will remain stable with bit weak trend in the short term.

API

03

On the evening of May 13, Jianfeng Group issued an announcement stating that recently, Zhejiang Jianfeng Pharmaceutical Co., Ltd., a wholly-owned subsidiary of the company, received the "Chemical API" from the National Medical Products Administration regarding the chemical raw material imatinib mesylate. Listing Application Approval Notice" (Notice No.: 2024YS00386).

The current market price of Colistin Sulfate is stable at USD13.95--14.2/KG. Some factories 'delivery time is very tight. Market prices have remained strong recently, and it is expected to be stable in the future.

FOOD ADDITIVE

04

Recently, the food additive Aspartame has been affected by market demand a bit. The transaction price in foreign markets is about USD9.8-10/KG. It is expected that the price will continue to remain stable in the future.
