VITAMIN

01

It is said that the vitamin C production line of CSPC is scheduled to be shut down for maintenance at the beginning of June and is expected to resume normal production at the end of September.

It is said that Jiangsu Jiangshan Pharmaceutical Co., Ltd. began to formally overhaul equipment and rectify production in March. After nearly two months of preliminary preparations, it plans to officially resume vitamin C series production in May and resume product supply of all specifications in June.

AMINO ACID

02

According to customs data, 14,000 tons of solid methionine were imported in April, a month-on-month increase of 13.4%, and a year-on-year decrease of 2.1%; from January to April, a total of 51,000 tons of solid methionine were imported, a year-on-year decrease of 17.5%; of which Evonik imported 39,000 tons, a year-on-year decrease of 17.5%. An increase of 21.4%; CJ imported 7,200 tons, a year-on-year decrease of 63.2%; Sumitomo imported 4,300 tons, a year-on-year decrease of 55.4%. The prices of solid methionine and liquid methionine manufacturers remained stable, the actual market transaction price was slightly lower, and end-users signed orders only for urgent demands.

API

03

On May 23, North China Pharmaceutical announced that the company's wholly-owned subsidiary North China Pharmaceutical Group Xiantai Pharmaceutical Co., Ltd. received the "Drug GMP Compliance Inspection Notice" issued by the Hebei Provincial Food and Drug Administration (Hebei Drug Supervision and Chemical Drug Symbol (2024) No. 36). It is understood that this drug GMP compliance inspection is the first drug GMP compliance inspection before marketing of ampicillin (enzymatic method) and piperacillin after they have been registered and approved. It is a new product added to the original product production line. The workshop's production equipment, There are no changes or new investments in facilities, etc.

FOOD ADDITIVE

04

Recently, due to market conditions, the transaction price of mannitol in foreign markets has been around USD3.3-3.4/KG. The delivery time is expected to be about one month, and it is expected to show a stable trend in the future. We will continue to pay attention to the market conditions.
