Vitamins to VEGA!

10 th. July. 2024

## VITAMIN

01

Recently, Lesaffre announced that it has signed an agreement with DSM-Firmenich, a leading innovative supplier in the fields of nutrition, health and beauty, to acquire the yeast extract business. The agreement reached between Lesaffre and DSM-Firmenich covers various aspects of the yeast derivative flavor ingredients business, including the acquisition of members and proprietary technologies of the DSM-Firmenich yeast extract business unit.

## AMINO ACID

02

Recently, Bayannaer Hengyu Biotechnology Co., Ltd., a joint venture between Anhui Huaheng Biotechnology Co., Ltd. and Hangzhou Youze Biotechnology Co., Ltd., has made a key breakthrough in the field of homoserine amino acid biomanufacturing technology, and its product performance indicators have reached the industry-leading level. Homoserine amino acids include methionine, cysteine, adenosylmethionine and homoserine, etc., and have broad application prospects, especially in the pharmaceutical, food, feed and other industries, with significant economic value. Taking methionine as an example, the current mainstream production method of methionine relies on chemical synthesis technology, which has complex processes and flammable and explosive raw materials.

## API

03

Recently, Zhuhai Rundu Pharmaceutical Co., Ltd. received the European Pharmacopoeia Certificate of Suitability (CEP Certificate) for Voriconazole API issued by the European Directorate for the Quality of Medicines and HealthCare. The acquisition of this certificate marks the recognition of the process and quality of Voriconazole API by the European regulatory market and other markets that recognize the CEP certificate, providing a competitive advantage for the company to further expand its international market.

## FOOD ADDITIVE

04

Recently, the issue of tank trucks directly loading edible oil without cleaning after unloading coal-to-oil has continued to attract attention.
