Vitamins to VEGA!

15th. July. 2024

## VITAMIN

01

Last week, the vitamin market continued upward. VD3 after a rapid rise in price increases slowed down finishing, picking and selling active, turnover strong; VE prices still rose; VK3 delivery tensions, factories are still stopping the report, the market turnover rose; B6 mainstream factories have stopped offering, the market to consume the inventory and the turnover turned out to be good; Calcium pantothenate's price bottom rebound, the mainstream factories to raise the price of the small, tense deliveries, the end of the active purchasing.

## AMINO ACID

02

Last week's amino acid market is relatively stable, Lysine prices tend to strengthen, the factory offer firm, delivery is tight, and even signed orders to November orders, last week, the overall market slowed down the progress of signing orders, the price is a little higher, the customer is also looking forward to the subsequent market situation and factory offer situation.

## API

03

Last week, the veterinary raw materials market overall stable operation, some varieties due to the summer shutdown maintenance or other supply problems, the price has been raised, the market is hot, mainly in the doxycycline, lincomycin, tylosin / tiamulin and other products; the rest of the varieties of prices basically stable, manufacturers price willingness to be stronger, the cost of the constraints of the decline in space is very small.

## FOOD ADDITIVE

04

Food additive market this week is basically stable. Creatine monohydrate mainstream manufacturers normal shipments and some need to End July; thickening products like Xanthan gum by the impact of the market situation in the domestic market is currently a stable transaction subsequent prices are still rising, delivery is expected to be in mid- to late-July. Will continue to pay attention to the market situation and the delivery of the factories.
