AMINO ACID

02

ADM Corynebacterium glutamicum NRRL B-67439 and NRRL B-67135 fermented L-liquid lysine passed EU safety certification: European Food Safety Authority (EFSA) issued a scientific opinion that ADM approved L-liquid lysine produced by Corynebacterium glutamicum NRRL B-67535 and NRRL B-67439 as a nutritional supplement for all animal species. This application is intended to amend the authorization of Corynebacterium glutamicum NRRL B-68248 as a production strain, and the new production strain meets the qualified provisions of the safety method when used for production purposes.

API

03

At present, Haisheng Pharmaceutical's synthesis process research and development of LUF API has obtained GMP certificate. As a high-tech enterprise and provincial R&D center, Haisheng Pharmaceutical actively lays out the development direction of new productivity. The company has made significant progress in the field of raw material drug research and development, and multiple projects are in the pilot stage or have been completed.

FOOD ADDITIVE

04

Recently, the food additive xanthan gum has been affected by market demand, and the price of domestic mainstream manufacturers has weakened. The current domestic market price is around USD3.3-3.7/KG.
