API

03

Florfenicol has reached the bottom of the recent price. The factory has little spot inventory, and the supply of some brands is relatively tight. The current mainstream factory price is around USD23.5-24. The factory has a strong willingness to maintain the price, and the market attention has increased. In the future, we will continue to pay attention to changes in market demand and supply.

Recently, the website of Harbin Pharmaceutical Group Pharmaceutical General Factory released the "First Online Public Announcement of Public Participation in the Mingshui-Cephalosporin API Project of Harbin Pharmaceutical Group Pharmaceutical General Factory".
