VITAMIN

01

Brother Technology's latest performance forecast shows that its net profit for January-September 2024 is expected to be 30 million to 39 million yuan, a year-on-year increase of 1035.07%-1375.60%.

AMINO ACID

02

Tryptophan: According to relevant data, 2,112 tons of tryptophan were imported in September, up 38.9% from the previous month and 37.3% from the previous year; from January to September 2024, the cumulative import of tryptophan was 16,891 tons, up 12.6% from the previous year. The recent market inquiries for tryptophan are not active, and users are expected to be cautious in signing orders in the short term, and the market is relatively weak.

API

03

The factory price of colistin sulfate has been raised recently. Currently, the mainstream factory quotes are around USD14.6/kg. There is a small supply of low-priced goods in the market, and foreign customers are still accepting the price. In the short term, the price is expected to be strong.

FOOD ADDITIVE

04

The price of potassium sorbate, a preservative product, remains stable, and all manufacturers deliver goods normally. The transaction price of potassium sorbate in the domestic market has stabilized at around USD 18-19/KG, and the transaction price in the foreign market is around USD2.3-2.4/KG. In the short term, the price of potassium sorbate will stabilize.
