VITAMIN

01

As confirmed by the ruling of the Nanjing Intermediate People's Court, the implementation of the reorganisation plan of Hongyang Nanjing was completed and the reorganisation proceedings of the Company were terminated. At present, the Company is actively urging the accounting firm to issue a special audit report on the liquidation of funds appropriation and apply for resumption of trading in accordance with the requirements of the relevant rules.

AMINO ACID

02

According to the latest news from Xiangyu Biochemical, the transaction price of tryptophan rose to 6,800usd/mt this week, and the offer of threonine was suspended. Pulled by the internal and external sales preparation and logistics factors, the company's supply is tight at present, mainly to meet the demand of core customers. Recent manufacturers tryptophan offer rose and the delivery cycle of 15-20 days, the spot is tight. In short time the market may run strongly.

API

03

Doxycycline hydrochloride, the domestic mainstream manufacturers limit price and sign delivery period is tight, the market at home and abroad customers inquiring actively, judge before the Spring Festival will usher in a wave of shock adjustment, please pay attention. At present, the market transaction is around 47usd, please pay attention to the follow-up.

FOOD ADDITIVE

04

The price of calcium propionate for preservative products is running steadily, the delivery of mainstream manufacturers is tight, the transaction price of calcium propionate in domestic market is stable to about 8-8.8 CNY/KG, and the transaction price in foreign market is about 1.1-1.2 USD/KG, and it is expected that there is not much change of the price of calcium propionate in the future in the short term.
